- ✓ 1" binder with loose leaf paper & a two pocket folder for art class
- ✓ Bring your recorder from elementary school for music class

Please label all supplies with your child's name!

Spencer-Van Etten Middle School

Greetings from the S-VE Middle School,

This year sixth graders will be allowed to use a scientific calculator for one of the two testing days on the New York State Mathematics Test. It is important that your child has a quality calculator for these assessments, as well as assignments throughout the year. We recommend that each child have their own as it is a tool that they will use throughout their academic career.

You can purchase the **Casio fx-300 ES** for around 12 dollars at Walmart or other retail stores. You can also purchase them online. We would like the students to get familiar with the tool as soon as possible so that they can be successful in their math class.

Thank you for your support.

Respectfully,
Mrs. Bloss
6th grade math teacher
