March 5, 2021

Dear Parents and Guardians,

We've had a busy week at S-VE. You have may noticed the blue buckets around the front of the high school. Our Agriculture students are collecting sap for the creation of maple syrup as part of their Ag curriculum. The PAVE after school program has open slots available. If your child is interested, please reach out to the middle school.

We were given the opportunity to partner with the Tioga County Department of Health to host a COVID vaccination clinic at the Middle School for the 1B population this past Wednesday. Special thank you to the Spencer Emergency Squad, Van Etten Community Fire and Rescue, and Chief Montiero for their assistance with the clinic.

Parents and guardians of student athletes, please continue to check your email for athletic updates from our Athletic Director. Reminder to all, athletic contests are livestreamed! Go to our athletics page on our website to access the livestream from the High School, Middle School or other IAC livestreams!

Hopefully you've had the opportunity to view the Capital Project Proposition posters in the community, access www.svecsd.org/capitalproject.cfm for Capital Project information or have watched the Capital Project Virtual Tour. On Thursday, March 11th at 7, a Capital Project Public Hearing will take place during the BOE meeting. Any questions regarding the Capital Project should be directed to sveinfo@svecsd.org by Thursday, March 11th. Remember, the Capital Project and Transportation Vote are on Tuesday, March 16, 2021 from noon – 8pm.

We appreciate your support, have a terrific weekend.

Be well,

Diahann Hesler
